

TO WHOM IT MAY CONCERN

20 November 2018

Notice of The Dates on Certificate

It brings to our attention that someone asks for the meaning of the above stated matter. This notice serves to define the above stated matter.

The 'Issue' and 'Expiry' denotes the validity period of the concerned certificate that we grant to our certified clients. So, 'Issue' denotes the first day and 'Expiry' denotes the last day of the effective certification cycle.

For example, we grant HKCAS accredited OHSAS 18001:2007 certificates to our certified clients with 'Expiry 11 March 2021' clearly denotes the validity of the concerned OHSAS 18001:2007 certificate is effective up to this date, i.e. 11 March 2021. Alternatively speaking, 11 March 2021 is the last date of validity of the concerned certificate. After 11 March 2021, the certificate will be expired.

Please feel free to contact us if we can be of any help.
